PIKO

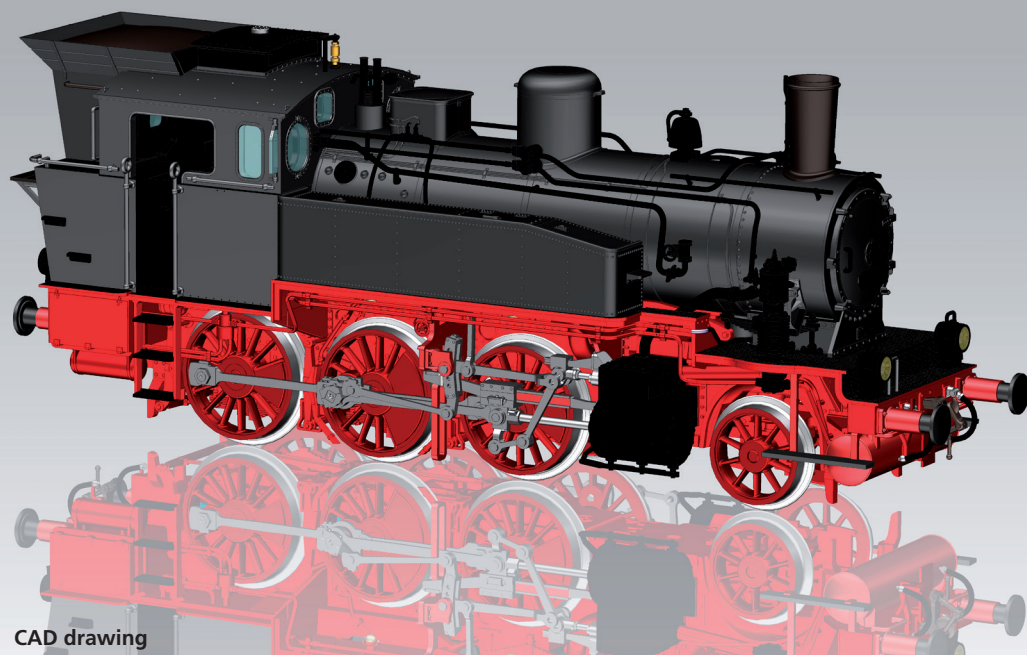

Steam loco class 91.3 DB

Robust, versatile and tireless –
the T 9.3 tank locomotive from PIKO!

Steam locomotive class 91.3 DB III

The T 9.3 tender locomotives, which were used in front of both passenger and freight trains, became one of the most produced locomotives in Germany with their top speed of 65 km/h. From 1901, the Prussian State Railway purchased more than 2,000 vehicles from the Königsberg Union Foundry and the German Reichsbahn in Alsace-Lorraine also ordered 132 units. In 1925, the DR took over the majority of the locomotives into its fleet and classified them as class 91, whereby some machines from Belgium were also included under this designation. During the Second World War, individual machines were sent to Poland and Austria, among others. After 1945, the locomotives were gradually withdrawn from scheduled service in Germany and were therefore no longer to be found on the DB in 1964 and on the DR in 1971.

Our prototype: Steam locomotive 91 1595 Deutsche Bundesbahn Bw Krefeld

TECHNICAL DATA

- LÜP: 123 mm
- Mindestradius: 422 mm
- Epoche III
- Interface NEM 658 PluX16
- NEM-Shaft and close coupling set
- Direction-dependent light change white / white

PIKO Steam locomotive class 91.3 DB III

With great attention to detail and state-of-the-art technology, the 91.3 series from PIKO is a real gem for layouts and display cases. The finest engravings, high-quality materials and numerous digital functions ensure an all-round harmonious overall picture. Whether in operation or as a showpiece - this model is convincing all along the line.

NEW MOLD

2025

Steam locomotive class 91.3 DB III

50730 DC

50732 DC, incl. PSD XP S and **PIKO TrainSound®** onboard

50733 AC, incl. PSD XP S and **PIKO TrainSound®** onboard

- DB locomotive with DRG lamps, driver's cab with rounded roof and coal box with flaps
- Fine lines
- Fine zinc die-cast spoke wheels and metal brake linkage
- Digitally switchable lighting in the driver's cab and firebox flickering as well as fine running gear lighting
- White head and tail lighting in modern, maintenance-free LED technology, changing in the direction of travel in analog operation
- Additional digital functions, e.g. shunting signal
- Digital sound versions with numerous typical vehicle sounds
- Suitable add-on parts are included with the model for presentation in the display case

MATCHING ACCESSORIES

- 56643 PIKO SmartDecoder XP PluX16
- Matching cars in the PIKO assortment:
z.B. Gondola Omm39 DB III, Side-Dump Coal Car DB III
